

The Funky Knuckles - Delicious Bio

The Funky Knuckles Super Awesome Biography:

The Funky Knuckles is a world-class jazz orchestra made up of genetically-enhanced cybernetic supermen. Their mind-blowing rhythms and harmonic complexity will shatter your fragile psyche and leave you drowning in a pool of fresh llama milk. The band members are as brilliant as they are handsome and have been featured as sidemen with Janet Jackson, Stanley Clarke, Larry Carlton, and many others. Recent albums have topped the iTunes Jazz charts, and they will be spawning their 4th album in November 2019. The Oracle has foretold that this album will revolutionize the sport of music for generations to come. This unstoppable crime-fighting squadron will make you dance like a kraken on meth before you burst into tears of joy which can be combined with powder from a ground-up cobra skull to synthesize the elixir that allows you to pass through solid objects.

Press Bio:

The Funky Knuckles belong to a new generation of improvising musicians, challenging the constraints of genre, but never losing sight of the groove. This is not your typical funk band... or jam band... or jazz band. The Funky Knuckles are something different entirely. This is the improvised music of the new generation, and it is continuously being re-defined, even as it is performed.

In recent years, Texas has gained a reputation as a hotbed for groove-oriented improvised music, and The Funky Knuckles have been a part of that movement for over a decade. It is a common occurrence to hear world-class musicians sitting in at their weekly residency in Dallas, and band members can be seen as sidemen with Janet Jackson, Stanley Clarke, and Larry Carlton.

The Funky Knuckles are releasing their fourth album, "Delicious" in November 2019 on Ropeadope, and will be touring domestically around the release.
